EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

The title of the application "Semiconductor laser" should be replaced with -- DFB Laser with AR Coating Selected to Provide Wide Temperature Range of Operation --.

In the abstract in line 2 replace "Gragg" with -- Bragg --.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

The claims are in condition for allowance based on the amendment and the accompanying remarks. The prior art of record does not disclose or suggest setting the reflection coating of the emitting surface to be at a minimum reflectivity for the maximum wavelength of the active region at a temperature when the maximum wavelength of the active region is greater than the maximum wavelength of the Bragg grating. This limitation in combination with the rest of the limitations of the claim is novel.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
